(* Method Determining (1st, 2nd, 3rd, 4th etc.) Place Awards in the League:

To determine place finish within the League, the following criteria will be used:

- Weekly match results will be added up and the team with the most match points will be League Champion. Match points are made up from the 4 games played from a team. Points are awarded as such: Win = 1 point; Draw = ½ point; Loss = 0 point.
- If TWO teams are still tied after calculating total match points, head-to-head results will be used as a second tiebreaker to determine winner.
- If TWO or more teams are still tied with Match Points & Head-to-head, next total game points will be used as a third tiebreaker to calculate a winner.
- If THREE or MORE teams are tied with match points, then total game points will determine the place of finish.
