“_ “ = will become a “0” if game is not scheduled/played, or might be a draw due to special circumstances

(*) Method Determining (1st 2nd, 3rd, etc.) Place Awards in the League:

To determine place finish within the League, the following criteria is used:

1. Weekly match results are counted and the team with the most match points will be League Champion.
Match points are made up from the 4 games played from a team. Points awarded as such:
Win = 1 point; Draw = ½ point; Loss = 0 point.
2. If TWO teams are still tied after calculating total match points, head-to-head results will be used as a second tiebreaker to determine winner.
3. If TWO or more teams tied with Match Points & Head-to-head, then total game points will be used as a third tiebreaker to calculate a winner.
4. If THREE or MORE teams are tied with match points, then total game points will determine the place of finish.
