9. Wheeler MS	3	4	4	4	4	4	4	4	X	31.0	9	1st

(*) Method Determining (1st, 2nd, 3rd, 4th etc.) Place Awards in the League:
To determine place finish within the League, the following criteria will be used:

1. Weekly match results will be added up and the team with the most match points
   will be League Champion. Match points are made up from the 4 games played from a team.
   Points are awarded as such: Win = 1 point; Draw = ½ point; Loss = 0 point.

2. If TWO teams are still tied after calculating total match points, head-to-head results
   will be used as a second tiebreaker to determine winner.

3. If TWO or more teams are still tied with Match Points & Head-to-head, next total game points
   will be used as a third tiebreaker to calculate a winner.

4. If THREE or MORE teams are tied with match points, then total game points will
   determine the place of finish.
